**INFORMATION****The Extension of Enforcement of Restrictions on Community Activities (PPKM) Java-Bali to February 28th, 2022**

In accordance with the Instruction of the Minister of Home Affairs (Inmendagri) No. 12 Year 2022 concerning the Implementation of Restrictions to Community Activities Level 4, Level 3, and Level 2 Corona Virus Disease 2019 In Java and Bali, the government has again implemented the Java-Bali community activity restrictions (PPKM) starting from 22<sup>nd</sup> to 28<sup>th</sup> February 2022.

There are four highlighted changes in the Inmendagri No 12 Year 2022: First change is, PPKM Level 4 is applied to 4 new regions: Cirebon, West Java; Magelang, Central of Java; Tegal, Central of Java; and Madiun, East Java. Secondly, PPKM Level 1 is no longer enforced. The third, PPKM status of Level 2 has decreased from 58 regions to 25 regions. Lastly, the number of regions with PPKM status of Level 3 has increased from 66 regions to 99 regions.

There are several adjustments on the regulation of PPKM in Java-Bali, include:

1. The implementation of activities in the non-essential sector is applied to:
  - Level 4: with a maximum of 25% of Work From Office (WFO) for employees who have been vaccinated and are required to use the PeduliLindungi application at the entrance and exit of the workplace;
  - Level 3: with a maximum of 50% of WFO for employees who have been vaccinated and are required to use the PeduliLindungi application at the entrance and exit of the workplace; and
  - Level 2: with a maximum of 75% (seventy five percent) of WFO for employees who have been vaccinated and are required to use the PeduliLindungi application at the entrance and exit of the workplace.

As DKI Jakarta is in Level 3 of PPKM, hence Jakarta is implementing 50% WFO for non-essential sectors.
2. Export-oriented industries can operate 75% staff for each shift in production facilities/factories, and 25% office administration services by implementing strict health protocols;
3. Non-quarantine hotels can operate by screening using the PeduliLindungi application with a capacity of 50%, and 25% for the use of ballrooms/fitness facilities/meeting rooms;
4. Restaurants/restaurants, cafes, supermarkets, hypermarkets, traditional markets, grocery stores, supermarkets that sell daily necessities, to activities in shopping centers can operate until 21.00 with a maximum visitor capacity of 50%. Especially for supermarkets, hypermarkets and shopping centers, it is necessary to carry out screening using the PeduliLindungi application, and only visitors with the green category may be allowed to enter; Meanwhile, restaurants/restaurants and cafes with operating hours from 18.00 to 00.00 can operate with a maximum capacity of 25%;
5. People's markets that sell non-daily necessities are still allowed to operate but only until 20:00.

To prevent the additional cases of Covid-19, the government urges people to remain compliant with health protocols though the current positive cases of Covid-19 continue to decrease by always implementing 3M (wear a mask, washing hands, keep the distance and avoid the crowd) and 3T (testing, tracing, and treatment).

For your reference, please find attached on the PPKM Levels in the Kabupaten/Regions of Provinces in Java-Bali based on Instruction of the Ministry of Home Affairs Inmendagri No. 12 Year 2022, and please check the press conference regarding the update regarding the regulations of the implementation of Emergency Community Activity Restriction (PPKM) in Java-Bali via the Official YouTube Channel of the Presidential Secretariat in Bahasa Indonesia [here](#).
