INFORMATION

Overseas Vaccine Recipients Can Apply for Vaccine Verification and Claim Additional Dose Certificates at PeduliLindungi Application

On April 14th 2022, the Government announced that every Indonesian citizen (WNI) and foreign national (WNA) who received COVID-19 vaccination abroad or combined with Indonesian vaccines can input additional dose vaccination data. Individuals could submit their foreign vaccine verification (Non-Indonesian Vaccines) through the website vaksinln.dto.kemkes.go.id.

Chief of Digital Transformation Office of the Ministry of Health, Setiaji stated "Previously, foreign vaccine recipients could only apply for vaccine data verification once. But now, they can input additional doses of vaccine, both the second and so on. This is also intended for recipients of vaccines abroad combined with vaccines in Indonesia (mixed doses).

In addition, Indonesian citizens who receive complete primary dose vaccination abroad can continue with the third vaccination (booster) in Indonesia through government program vaccines. The third vaccination ticket will appear in the PeduliLindungi application. With the existing updates, the Ministry of Health hopes that this additional dose feature will make it easier for Indonesian citizens and foreigners who have received the COVID-19 vaccine abroad to claim a vaccine certificate in the PeduliLindungi application, so that they can move safely and comfortably in public spaces.

Step by step on how to input additional foreign vaccine doses in the PeduliLindungi application as follows:

1. Visit the website vaccineln.dto.kemkes.go.id
2. Login with an approved account
3. Click 'Apply Additional Verification Request' to get started
4. Personal data will appear according to the previous submission
5. Enter only the number of additional doses of foreign vaccine data you want to verify
6. Every successful submission will get an "Open" status
7. The verification process takes 3 to 5 working days
8. The status of the application "Approved" or "Rejected" will be notified via email
9. If you have previously claimed, an additional dose certificate will appear automatically.

Meanwhile, if you have never made a certificate claim before, you can follow these steps:

1. Open the PeduliLindungi app
2. Register or login with a registered account
3. Select the "Vaccine Certificate" menu then click "Claim Certificate"
4. Enter the required data
5. Make sure it is correct, then confirm by selecting "Check"
6. The foreign Vaccine Certificate (VNI) will appear in the "Vaccine Certificate" menu

For your reference, please check the official announcement from the Ministry of Health concerning foreign vaccines verification in the link [here](#).
