INFORMATION

Updates on Moderna Type Booster Vaccination Can Be Given to Janssen Vaccine Recipients (J&J)

The Directorate General of Disease Prevention and Control (P2P) under the Ministry of Health enacted the Circular of the Director General of P2P No. SR.02.06/II/1188/2022 regarding the addition of a booster dose of COVID-19 vaccination regimen, Janssen vaccine recipients (J&J) can get a Moderna type booster vaccination in **February 25<sup>th</sup>, 2022**. The Janssen (J&J) COVID-19 vaccine is one of the vaccines that received an emergency use permit by the Food and Drug Administration (BPOM) and was only given to the age group of 18 years and over. The Janssen (J&J) vaccine is the first COVID-19 vaccine with a single dose, although the vaccine recipient only received one dose but was considered to have received the complete vaccine.

To get a booster vaccine, Indonesian citizens who do not have a mobile phone, or do not even have a population identification number (NIK), the recipient can still be assisted by officers manually, by showing a printed vaccine card. The Janssen (J&J) vaccine itself has been recorded in the system as doses 1 and 2 in all districts/cities and officers can check on the dashboard of the Covid-19 Handling Committee and National Economic Recovery (KPCPEN).

For your reference, please check Circular of the Director General of P2P No. SR.02.06/II/1188/2022 regarding the addition of a booster dose of COVID-19 vaccination regimen, Janssen vaccine recipients (J&J) can get a Moderna type booster vaccination in the link [here](#).
