Update on the List of Prohibited Goods for Goods Importing

The Ministry of Trade issued Minister of Trade Regulation No. 40 Year 2022 concerning prohibited goods for exporting and importing on June 13th 2022. This regulation changed the list of prohibited goods for importing from the previous Minister of Trade Regulation No. 18 Year 2021. This regulation was issued after considering that previously listed goods on Regulation No. 18 Year 2021 were no longer in accordance with the development and needs in Indonesia.

Previously, goods prohibited for exports were in the sector of forestry, agriculture, subsidized fertilizer, mining, cultural heritage, and waste-scrap materials. Meanwhile, prohibited goods for imports were rice, destructive ozone layer materials, used textiles, goods based on cooling system using Chlorofluorocarbons (CFCs) or Hydrochlorofluorocarbon 22 (HCFC-22), medicine materials, hazardous materials, waste materials, hand tools, and medical devices containing mercury.

Furthermore, in this regulation, the list of prohibited goods for importing has been changed due to the developments and public needs that are no longer suitable. Currently, goods that are prohibited for importation are sugar, rice, destructive ozone layer materials, used textiles or used apparel, goods based from cooling system using CFCs or HCFC-22, a certain type of medications (drugs) and food, hazardous materials (B3), hazardous and non-hazardous (non - B3) toxic waste, finished hand tools, and medical devices containing mercury.

With this regulation, the previous goods listed in the Attachment II (Lampiran II) of the Ministry of Trade Regulation No. 18 Year 2022 about the list of prohibited goods for importing from the previous regulation are **amended**. Meanwhile, the latest list of prohibited goods for exporting merges and did not change from the previous regulation.
