## President Announcement on the Java-Bali Emergency PPKM from July 3rd - July 20th 2021

Today, July 1st, 2021, President Joko Widodo (Jokowi) has set the Emergency of Implementation of Emergency Community Activity Restrictions (PPKM) in Java-Bali to suppress the transmission of the corona virus (Covid-19). This Emergency PPKM is valid from July 3rd to July 20th, 2021.

This policy was announced by President Jokowi through the Presidential Secretariat's Conference. The implementation of Emergency PPKM aims to decrease the addition of daily confirmed cases to less than 10,000 cases per day. President Jokowi has appointed the Coordinating Minister for Maritime and Investment Affairs, Luhut Binsar Pandjaitan as the Coordinator of Emergency PPKM for the Java-Bali region.

The following rules during the Emergency PPKM as announced by Luhut are:

1. The non-essential sector applies for 100% work from home (WFH).
2. All of the teaching and learning activities are carried out online or online.
3. For essential sectors, a maximum of 50% of work from office (WFO) staff is applied with a health protocol, and for critical sectors, a maximum of 100% of work from office (WFO) staff is allowed with a health protocol
  - The coverage of essential sectors includes finance and banking, capital markets, payment systems, information and communication technology, non-quarantine handling hotels, and export-oriented industries.
  - Meanwhile, the coverage of critical sectors is energy, health, security, logistics and transportation, food, beverage and supporting industries, petrochemicals, cement, national vital objects, disaster management, national strategic projects, construction, basic utilities (electricity and water), and industry to fulfill the basic needs of the people.
  - For supermarkets, traditional markets, grocery stores, and supermarkets that sell daily necessities, operating hours are limited to 20:00 local time, with a capacity of 50% of visitors. For pharmacies and drug stores can be open full 24 hours.
4. Activities at shopping centers/malls/trade centers are closed.
5. The implementation of eating/drinking activities in public places (food stalls, restaurants, cafes, street vendors, hawker stalls) both in separate locations and those located in shopping centers/malls only accept delivery or take away and do not accept food on the spot (dining-in).
6. implementation of construction activities (construction sites and project sites) operates 100% by implementing stricter health protocols.
7. Places of worship such as mosques, prayer rooms, churches, temples, monasteries, and pagodas, as well as other public places that function as places of worship are temporarily closed.
8. Public facilities (public areas, public parks, public tourist attractions, and other public areas) are temporarily closed.
9. Cultural arts, sports, and social activities (locations of arts, culture, sports facilities, and social activities that can cause crowds and crowds) are temporarily closed.
10. Public transportation (public vehicles, mass transportation, taxis (conventional and online), and rental vehicles (rental) is enforced with a maximum capacity setting of 70% by implementing stricter health protocols
11. Wedding receptions are attended by a maximum of 30 people by implementing more health protocols strict and not allowed to eat at the reception. Food can still be provided in sealed containers to take home.
12. Travelers who use long-distance transportation modes (airplanes, buses, and trains) must show a vaccine card (at least dose I vaccine) and H-2 PCR for planes and antigen (H-1) for other long-distance transportation modes.
13. Regional Government State-Supervising Police Unit (Satpol PP), National Army (TNI), and Police to carry out strict supervision of the implementation of the tightening of community activities above, especially in point no 3.
14. Strengthening 3T (Testing, Tracing, Treatment) needs to be continuously applied:
  - Testing needs to be increased to a minimum of 1/1,000 population/week. Testing needs to be increased until the positivity rate is <5%. Testing needs to be continuously improved for suspects, i.e. those who are symptomatic and also in close contact.
  - Tracing needs to be done until there are >15 close contacts per confirmed case. Quarantine needs to be carried out on those identified as close contacts. Once identified close contacts should be checked (entry-test) and quarantine needs to be carried out. If the test result is positive, then isolation is necessary. If the test result is negative, then quarantine is necessary. On the 5th day of the quarantine, it is necessary to carry out an exit test to see if the virus is detected after/during the incubation period. If negative, then the patient is considered to have completed quarantine.
  - Treatment needs to be done comprehensively according to the severity of the symptoms. Only patients with moderate, severe, and critical symptoms need to be hospitalized. Isolation needs to be done strictly to prevent transmission.
15. Achievement of the vaccination target of 70% of the total population in priority cities/districts no later than August 2021.
