The Extension of Enforcement of Restrictions on Community Activities (PPKM) Java-Bali to November 1st, 2021

According to the press conference held by the Secretariat of the President of the Republic of Indonesia on October 18th, 2021, the Coordinating Minister for Maritime Affairs and Investment, Luhut Binsar Pandjaitan announced the extension of the implementation of PPKM in Java-Bali for two weeks from October 19th to November 1st, 2021.

In response to the current situation of the Covid-19 pandemic that shows a number of decreases, Coordinating Minister for Maritime Affairs and Investment, Luhut Binsar Pandjaitan stated that there are approximately 54 regions/cities in Level 2 and 9 others in Level 1. However, the majority of Java-Bali regions/cities are still implementing PPKM Level 3.

The regulations of PPKM extension in Java-Bali will remain the same from the previous period with several adjustments that will be carried out by the government, including:

1. The opening of children playground (under 12 years old) in malls or shopping center for regions/cities in Level 2 with parental guidance that include the phone number, address, and the children playing duration for tracing needs.
2. The opening of Movie Theater for children (under 12 years old) with maximum capacity by 70% for regions/cities in Levels 2 and 1.
3. Logistic drivers who get their second dose of vaccine can use their Rapid Antigen Test that can be validated to a maximum of 14 days.
4. The opening of tourist attractions in Level 2 regions/cities for children under 12 years old with parental guidance.
5. The opening of water tourism in regions/cities on Level 2 and 1, while the trial opening of tourist attraction in regions/cities on Level 3 will be added in accordance with the permission of the Ministry of Tourism.

As emphasized before, the government still urges people to remain compliant with health protocols though the current positive cases of Covid-19 continue to decrease by always implementing 3M (wear a mask, washing hands, keep the distance and avoid the crowd), 3T (testing, tracing, and treatment), and vaccine acceleration.
